SUBJECT INDEX

- Alkylidyne compounds
Coupled electron pair calculation for $R-C\equiv E$ molecules ($E = N, P, As$ or Sb), 171
- Ar-O₃ complexes
Vibrational matrix shift simulations of SO₂ in rare gases: importance of many-body effects, 55
- Ar-SO₂ complexes
Vibrational matrix shift simulations of SO₂ in rare gases: importance of many-body effects, 55
- Benzene
Computational analysis of the dinitramine and chlorine derivatives of benzene and *s*-tetrazine, 155
- Benzo[*a*]pyrene
Theoretical study by AM1 of the metacyclophanes *anti*-[2]metacyclo[2](1,3)naphthalenophane-1,11-diene, dihydropyrene and benzo[*a*]pyrene, 147
- CNDO/S
Calculation of triplet states by the CNDO/S method, 187
- CO-M chemisorption
Studies on the "cluster-surface analogy": Metallic Slater basis sets for *ab initio* calculations of chemisorption, 105
- 1,3-Cyclohexadiene
An *ab initio* study of the structures and the inversion barriers in 1,3-cyclohexadiene, 1,2-dihydronaphthalene and 9,10-dihydrophenanthrene, 117
- Diazabicyclonones
AM1 study of several diazabicyclonones, 21
- 1,2-Dihydro-1,2-dihydroxynaphthalene
Conformational analysis of *cis*- and *trans*-1,2-dihydro-1,2-dihydroxy naphthalene, 65
- 1,2-Dihydronaphthalene
An *ab initio* study of the structures and the inversion barriers in 1,3-cyclohexadiene, 1,2-dihydronaphthalene and 9,10-dihydrophenanthrene, 117
- 9,10-Dihydrophenanthrene
An *ab initio* study of the structures and the inversion barriers in 1,3-cyclohexadiene, 1,2-dihydronaphthalene and 9,10-dihydrophenanthrene, 117
- Dihydropyrene
Theoretical study by AM1 of the metacyclophanes *anti*-[2]metacyclo[2](1,3)naphthalenophane-1,11-diene, dihydropyrene and benzo[*a*]pyrene, 147
- Dimethylaminophenyl
Structural and spectroscopic properties of a set of donor-acceptor molecules with and without spacers. Part 1. Methoxyphenyl and dimethylaminophenyl groups as donors, 257
- Ethanol
Ab *initio* study of the hydroxyl rotational potentials in ethanol, *gauche*-1-propanol and *gauche, gauche*-2-methyl-1-propanol, 207
- Fluoranthenoids
Graph-theoretical studies of fluoranthenoids and fluorenoids. Part 1, 219
- Fluorenoids
Graph-theoretical studies of fluoranthenoids and fluorenoids. Part 1, 219
- H-C(OH)-C(OH)-H dihedral angle
Conformational analysis of *cis*- and *trans*-1,2-dihydro-1,2-dihydroxy naphthalene, 65
- HC(=X)Y-CH(CH₃)₂(X, Y = O or S)
Conformational analysis of carbonyl and thiocarbonyl esters: the HC(=X)-Y(CH₃)₂(X, Y = O or S) internal rotation, 87
- Julolidyl
Structural and spectroscopic proper-

ties of a set of donor-acceptor molecules with and without spacers. Part 2. Piperonyl and julolidyl groups as donors, 273

M-CO clusters

Studies on the "cluster-surface analogy": Metallic Slater basis sets for ab initio calculations of chemisorption, 105

Me₂Si(CH₂)₂S

Semi-empirical calculations of the electronic structure of 3,3-dimethyl-3-silathietane, 1

MeCH₂NO₂

Structure and tautomerism of C and N-nitro compounds: an ab initio MO study, 39

MeCH=NO₂⁻

Structure and tautomerism of C and N-nitro compounds: an ab initio MO study, 39

MeN=NO₂⁻

Structure and tautomerism of C and N-nitro compounds: an ab initio MO study, 39

MeNHNO₂

Structure and tautomerism of C and N-nitro compounds: an ab initio MO study, 39

Metacyclophanes

Theoretical study by AM1 of the metacyclophanes *anti*-[2]metacyclo[2](1,3)naphthalenophane-1,11-diene, dihydropyrene and benzo[a]pyrene, 147

anti[2]Metacyclo[2](1,3)naphthalenophane-1,11-diene

Theoretical study by AM1 of the metacyclophanes *anti*-[2]metacyclo[2](1,3)naphthalenophane-1,11-diene, dihydropyrene and benzo[a]pyrene, 147

Methoxyphenyl

Structural and spectroscopic properties of a set of donor-acceptor molecules with and without spacers. Part 1. Methoxyphenyl and dimethylaminophenyl groups as donors, 257

2-Methyl-1-propanol

Ab initio study of the hydroxyl rotational potentials in ethanol, *gauche*-1-propanol and *gauche,gauche*-2-methyl-1-propanol, 207

Ne isoelectronic hydrides

A comparative study of the satellite structures in the photoelectron spectra of the Ne, Ar and Kr isoelectronic hydrides, 233

Ozone

Møller-Plesset fourth order perturbations and group theoretical formalism for C_{2v} and D_{3h} isomers of ozone, 131

Pentazine

Computational analysis of the dinitramine and chlorine derivatives of benzene and s-tetrazine, 155

PF₃

Multiplicity of the inversion reaction paths for PF₃, 79

Piperonyl

Structural and spectroscopic properties of a set of donor-acceptor molecules with and without spacers. Part 2. Piperonyl and julolidyl groups as donors, 273

Procaine-H⁺

A comparative study of the procaine-H⁺ structures. Interpretation of the procaine hydrochloride spectra by AM1, 7

1-Propanol

Ab initio study of the hydroxyl rotational potentials in ethanol, *gauche*-1-propanol and *gauche,gauche*-2-methyl-1-propanol, 207

SF₄

Enantiomerization path of the sulphurane SF₄, 73

s-Tetrazine

Computational analysis of the dinitramine and chlorine derivatives of benzene and s-tetrazine, 155
